**DETAILED ACTION**

***Election/Restrictions***

1. Claims 9 – 12 and 21 – 23 directed to an allowable process. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 13, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

***Priority***

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Allowable Subject Matter***

3. Claims 9-13 and 21 – 23 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination. In particular, the limitation of "performing temporary curing before separating the first and second supporting layers from the first prepreg; and performing complete curing after separating the first and second supporting layers from the first prepreg" could not be found alone or in combination in the prior art of record as recited in claim 11 and the limitation of "performing temporary curing before separating the third supporting layer from the second prepreg; and performing complete curing after separating the third

supporting layer from the second prepreg” could not be found alone or in combination in the prior art of record as recited in claim 12.

Claims 1, 10, 13, and 21 – 23 are also allowed as being dependent from an allowed independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
